BONUS BAMBI News July 2017

BaltGene 2017 – registration still open

Registration is open and we are glad to see that BaltGene 2017 gathers delegates from many Baltic Sea countries. BONUS BAMBI end user-conference will take place on September 21–22 in Stockholm, and is a meeting place for managers and scientists. Invited speakers include Fred Allendorf, Craig Primmer and Dorte Bekkevold, all with a vast experience on genetic aspects of management and conservation biology.

Registration is still open at www.bambi.gu.se. Don't miss this opportunity for discussions and knowledge exchange!

See you in Luleå in October!

BONUS BAMBI final project meeting is hosted by Annica Sandström and her team in Luleå. The meeting will take place October 23-25 (arrival evening of the 23rd and meeting ending in the afternoon on the 25th) in the wonderful Bothnian archipelago, just 30 minutes drive from Luleå airport. A program will be circulated after the summer.

Conference center is Brändö Fritidsby <http://www.brandokonferens.se> (information in Swedish only but nice pictures of the facilities and surroundings)

Report accepted by BONUS

BONUS BAMBI Report for 2016 was accepted on June 20th by Bonus after a minor revision. Read the public summary of the report here: www.bambi.gu.se

New publication on *Fucus*

Neutral processes forming large clones during colonisation of new areas. M. Rafajlović, D. Kleinhans, C. Gulliksson, J. Fries, D. Johansson, A. Ardehed, L. Sundqvist, R. T. Pereyra, B. Mehlig, P. R. Jonsson and K. Johannesson. Accepted manuscript online: 30 MAY 2017, <http://onlinelibrary.wiley.com/doi/10.1111/jeb.13124/full>

Wishing you all nice summer holidays!
Susanne & Kerstin
